

Watertown-Mayer Robotics Team Donation / Sponsorship Request

We are looking for supporters for our 2024-25 Season. If you are looking for an organization to support that brings students, coaches, mentors and community members together, we are the team for you! We would like to thank you for taking the time to read this letter to learn more about us and for considering donating or becoming a sponsor to our team.

About Our Team

We are FRC Team 7530 in FIRST Robotics. This is our 7th season and we are proud of all of our accomplishments. Our biggest accomplishments have been placing 3rd at Northern Lights Regional Competition, competing at the MSHSL State Competition, receiving the Dunwoody College Outstanding Engineering & Design Award at State and competing at the World Championship as a rookie team.

Our program is open to 8th-12th graders. What's really cool about robotics is that it is not limited to only students with an interest in designing and building robots. We have students learning about marketing, social media, photography, videography, websites, podcasts, accounting, finance, fundraising, safety, strategy and more!

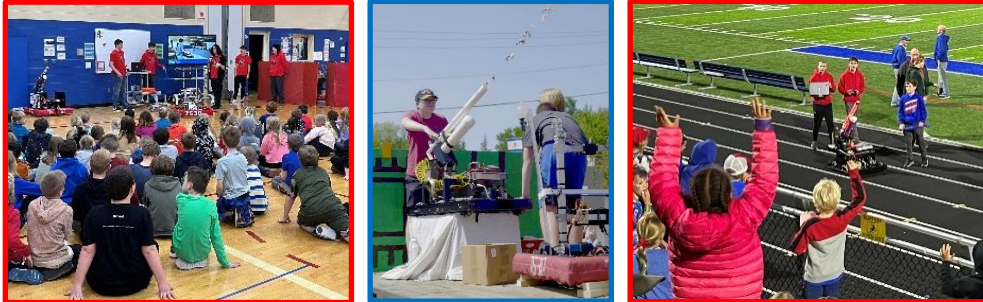

Robotics Season & Competition

We begin our pre-season in October. Our main focus is skill training to prepare for our design and build season which begins early January. This upcoming pre-season we plan to attend the Conference Championship for the first time. We would also like to attend two regional competitions. In the past we have only competed at one regional competition in Duluth.

Community Outreach

We remain active in our community throughout the year. We enjoy volunteering for local Lions Clubs. We have hosted robotics events to allow community members to drive and learn about robots. We participate in town parades, school sporting events and school presentations where we launch candy or t-shirts using our cannon robot. It's important to us to volunteer and give back to our community.

Fundraising Goal

We are looking to raise \$25,000 for our 2024-25 Season. These funds help us purchase robot components (mechanical, electrical and programming), computers, safety supplies, game and field pieces, team shirts and banners, tools and equipment, marketing supplies, items for our community outreach events, maintenance of our t-shirt cannon robot, competition registration fees, lodging, transportation and more.

Donations and Sponsorship Opportunities

We gratefully accept donations in any amount and offer four levels of sponsorships.

Sponsorship Benefits	Bronze \$250	Silver \$500	Gold \$1000	Platinum \$2500 or more
Recognition on social media sites & website	X	x	x	x
Name on our travelling banner (January 15, 2025 deadline)		x		
Logo on our travelling banner (January 15, 2025 deadline)			x	x
Sticker on our promotional cannon robot * Launches t-shirts at local events * Launches candy at parades		x	x	x
Sticker on our competition robot (January 15, 2025 deadline)			x	x
Customized promotion plan				x
